Recreation Wellness Center Expansion

Cleveland, OH | \$3,200,000 | 26,000 SF

Renovation of the 26,000 SF facility included infill of existing racquetball courts to create 10,000 SF of new two story space for exercise and fitness programs. The infill resulted in an additional 4,900 SF of usable space. The project also included a new vestibule with connection to a below-grade pedestrian tunnel and a new entry plaza. Site work also included walk re-alignment, storm sewers, grading and landscaping. TBA provided Structural & Civil Engineering and Landscape Architecture services.
